The notification shall advise the parent/guardian of all current attendance options under your district's intradistrict program, a description of the procedure for alternative attendance areas or "open enrollment" programs, an application form for requesting a change, and a description of the appeals process available, if any, for a parent/guardian denied a change of attendance. The State Department of Education is supposed to distribute language for this portion of the notification to all school districts. If you have received it, follow its directions.] [E.C. sections 35160.5 and 48980]

*7. Interdistrict Attendance Options

*12. High School Students Leaving School at Lunch Time

The governing board of this school district, pursuant to Education Code section 44808.5, has decided to allow the pupils enrolled at the high school to leave the school grounds during the lunch period. In those cases, the peace officer will notify the parent or guardian. [E.C. section 48906]

*Must be tailored for your district or is optional if so indicated.

16. Parent Responsibility

Parents or guardians are liable for all the damages caused by the willful misconduct of their minor children which result in death or injury to other students, school personnel, or school property. Parents are also liable for any school property loaned to the student and willfully not returned.

This school year, parent or guardian liability may be as much as \$15,693 in damages and another maximum of the same amount for payment of a reward, if any. We expect these amounts to be indexed and rise annually. [E.C. section 48904]

HEALTH SERVICES

23. Kindergarten and First Grade Physical Examination

Good health is important to your child's learning and successful academic career. State law requires that for each child enrolling in the first grade, the parent must present a certificate, signed by a physician, verifying that the child has received a physical examination within the last 18 months. You may file with the school district a written objection or waiver stating the reasons if you are unable to obtain such services. You must understand that your child may be sent home if you fail to provide the certificate or waiver, or if your child is suspected to be suffering from a contagious disease. You may find it convenient to have your child immunized at the same time that the physical examination is conducted. These services may be available to you at no cost through the Child Health and Disability Prevention Program (CHDP). For information, you may contact [name, title, place and phone number]. [Health and Safety Code sections 323.5, 324.2., 324.3; E.C. sections 48211, 49450]

*24. Immunizations

Immunizations must be up-to-date before admission to any K-12 school program is granted. To enter or transfer into public and private elementary and secondary schools (grades kindergarten through 12), children under age 18 years must have immunizations as outlined below. New 7th grade entry requirements went into effect July 1, 1999. A varicella requirement for kindergarten entry went into effect July 1, 2001. Vaccines and required doses are:

*Must be tailored for your district or is optional if so indicated.

*** Effective Date 7/1/01.

*Must be tailored for your district or is optional if so indicated.

The law allows (a) parents/guardians to choose exemptions from immunization requirements based on their personal beliefs, and (b) physicians of children to elect medical exemptions. The law does not allow parents/guardians to elect an exemption simply because of inconvenience (a record is lost or incomplete and it is too much trouble to go to a physician or clinic to correct the problem). See the back of the blue California School Immunization Record (PM 286) for instructions and the affidavit to be signed by parent/guardians electing the personal beliefs exemption. For children with medical exemptions, the physician's written statement should be stapled to the CSIR.

Schools should maintain an up-to-date list of pupils with exemptions, so they can be excluded quickly if an outbreak occurs. If an outbreak of a communicable disease occurs at a school, the non-immunized student will be excluded for his/her own safety until such time as directed by health officials or district administration. [Health and Safety Code section 120335].

*25. Assistance with Medication; Epinephrine; Use of Sunscreen Permitted

If your child must take medication during the school day which is prescribed by a physician, [please notify the school office if you want a school employee to assist.]

[or]

[Designated school personnel may assist your child only if:

- a. The principal of your child's school receives a written statement from the physician detailing the method, amount, and time schedules by which the medication is to be taken; and
- b. Parent submits a written statement indicating his/her desire that the school district assist his/her child in taking the medication; and
- c. Parent signs a release statement on a special form available from the school.]

[Sample forms may be attached.]

If your child is on a continuing medication regimen for a nonepisodic condition, you are required to notify the superintendent of the medication being taken, the current dosage, and the name of the supervising physician. [E.C. section 49480]

State law now allows students with doctor authorization to carry and self-administer auto-injectible epinephrine medication. Students may also carry and use sunscreen without a doctor's note or prescription, and may also wear sun-protective clothing [E.C. section 35183.5].

*Must be tailored for your district or is optional if so indicated.

26. Physical Examinations

If you want your child to be exempt from physical examinations at school, file a written statement with the school refusing such an exam. However, when there is a good reason to believe that your child is suffering from a recognized contagious or infectious disease, he/she may be sent home and shall not be permitted to return to school until the contagious or infectious disease does not exist. [E.C. section 49451]

*27. Medical and Hospital Services

[The district must give notice of any medical services or insurance it provides or makes available. Example: "The school district does not provide insurance on individual students. However, you may purchase accident insurance through the district for medical and hospital services covering your child. The insurance provides coverage for your child while on school grounds or in school buildings during the time your child is required to be there because of his/her attendance during a regular school day of the district; or while being transported by the district to and from school or other place of instruction; or while at any other place as an incident to school-sponsored activities and while being transported to, from and between such places. A letter indicating the details of this insurance will be sent to you shortly."] [E.C. section 49472]

28. Scoliosis Screening (Curvature of the Spine)

29. Vision Appraisal

Your child's vision will be checked by an authorized person between grades kindergarten through 8, unless you present to the school a certificate from a physician or optometrist verifying prior testing or that it violates your faith in a recognized religious belief. [E.C. section 49455]

*30. Sight and Hearing Test

The school district is required to provide for the testing of the sight and hearing of each student enrolled in the schools unless you submit a written denial of consent. [E.C. section 49452]

*Must be tailored for your district or is optional if so indicated.

*31. Information for Use in Emergencies

For the protection of your child's health and welfare, we ask that you fill out and return the enclosed Emergency Information Card. [Design and use your own form.] [E.C. section 49408]

*32. Confidential Medical Services Without Parental Consent

[Optional: According to the Education Code, school authorities may excuse any student in grades 7 through 12 from school for the purpose of obtaining confidential medical services without the consent of the pupil's parents or guardian. [You may wish to describe your district's practice at this point.] [E.C. section 46010.1]

*33. Immunizations and Control of Communicable Disease

[Optional: This district cooperates with the local health office in the control and prevention of communicable disease in school-age children. If you consent in writing, the district may permit any person licensed as a physician and surgeon, or any person licensed as a registered nurse to administer an immunizing agent to your child. You will be advised in writing before any immunization program is instituted.] [E.C. section 49403]

SEX / HIV / AIDS EDUCATION

34. Instruction in Comprehensive Sexual Health Education / HIV / AIDS Prevention [EC §§51934-51939]

Districts shall annually notify parents about instruction in comprehensive sexual health education and HIV/AIDS prevention education and research on student health behaviors and risks planned for the school year. Written and audiovisual educational materials used in such education are available for inspection. You will be notified prior to the commencement of any such instruction as to whether the instruction will be taught by district personnel or by outside consultants in class or during an assembly. A copy of the law pertaining to such instruction is available upon request from the district. You may request in writing that your child not receive comprehensive sexual health education and/or HIV/AIDS prevention education.

The law also authorizes the district to use anonymous, voluntary and confidential research and evaluation tools to measure student's health behaviors and risks, including tests, questionnaires, and surveys containing age appropriate questions about the student's attitudes concerning or practices relating to sex. The district must notify you in writing before any such test, questionnaire, or survey is administered and provide you with an opportunity to review the test and request in writing that your child not participate.
