## CONSTRUCTION DELIVERY METHODS

Workshop Presented by:  
**Candace B. Neal and Mark E. Pafford**

This workshop will provide a breakdown of the five most common construction delivery methods: Design Bid Build, Design Build, Construction Manager at Risk, Construction Management Multi-Prime, and Lease-Leaseback. Each method was designed for specific purposes, has specific sets of rules and regulations and is best utilized for certain types of projects. Knowing the differences between them and when to use each delivery method can determine a project's success.

**Date:** Tuesday, May 16, 2023

**Time:** 10 - 11:30 a.m.
